ABDULSALAM MOHAMMED

Front End Developer

PROFILE

I have two years of expertise as a front-end developer, and I know how to use React, JavaScript, CSS, and HTML to write clear, reusable code.

I use the most recent tools to maintain and enhance a web application's usability.

My professional objective is to create processes and software tools to enhance the delivery of services and create better products.

EXPERINCE

React Developer

Charles Technology, Ghana (Mar – Jul 2022)

● Building a full stack web application by integrating REST API and working with back-end developers.

● Responsible for creating the user interface from the Figma design to the website.

● Researching and incorporating the newest software and tools into the web application.
