ABDULSALAM MOHAMMED

Front-End Engineer

PROFILE

I am a front-end engineer proficient in writing clean, reusable code using React.

I stay up-to-date with the latest tools to maintain and enhance the usability of web application. My career goal is to develop software tool and procedures that improve service delivery and generate exceptional projects.

EXPERINCE

Frontend Engineer

Charles Technology, Ghana (Mar – Jul 2022)

● I am responsible for developing a full-stack web application by integrating REST API and working closely with back-end developers.

● I design the website's user interface based on Figma design and ensure it is user-friendly

● To keep up with the latest trends, I research and incorporate the newest software and tools into the web application.

Frontend Developer

AZA, Lagos (June 2022 – present)

● I am responsible for identifying and resolving bugs in the code, optimizing it for high-quality and reusability.

● I review the team's code and enhance the web application's usability by implementing improvements.

● Collaborating with UI/UX designers, I construct frontend code to ensure a seamless user experience.

SKILLS

● React.js, Next.js

● JavaScript/ES6, Typescript

● Css/scss, Tailwind, Bootstrap, styled-component

● Html5

● Git and Github
